

Supplier Diversity and Ethical Sourcing Policy

Supplier Diversity and Ethical Sourcing Policy

Our company is committed to fostering a diverse and inclusive supply chain that reflects the communities we serve. As part of our commitment to supplier diversity, we require all suppliers to adhere to our Supplier Diversity and Ethical Sourcing Policy. This policy outlines our expectations for suppliers who wish to be considered for preferred-vendor status.

To be eligible for preferred-vendor status, suppliers must complete an ethical sourcing self-certification form as part of their application process. This certification ensures that the supplier has a demonstrated commitment to ethical business practices and adheres to our company's values. As described under the Data Retention Policy, all documentation related to supplier diversity and ethical sourcing efforts will be retained for a minimum of three years from the date of submission.

When making sourcing decisions, we must consider diverse-owned suppliers as part of our evaluation process. This means that we will actively seek out and prioritize suppliers who are owned and controlled by minority or women-owned businesses, as well as other underrepresented groups. As outlined in the Expense Reimbursement Procedure, all expenses related to supplier diversity initiatives, including travel and training costs, must be properly documented and reimbursed in accordance with company policies.

Our commitment to supplier diversity and ethical sourcing is essential to our company's mission of promoting inclusivity and fairness in all aspects of our business. By working together with suppliers who share our values, we can create a more equitable and sustainable supply chain that benefits both our organization and the communities we serve.
